Programme

EU-GIFT universities developed in the past a variety of Buddy/Mentorship programmes. The Alliance now aims to design a common **EU-GIFT Buddy programme** based on the good practices and the recommendations of the existing programmes to foster the mobilities and improve the welcome and the integration of incoming students.

During the first Buddy programme workshop the representatives will introduce their existing programmes and share their good practices and know-how. Nourished by this knowledge we will build up the foundation stones of the EU-GIFT Buddy programme: the principles, the framework, the network and the buddy's charter.

We warmly invite staff members from EU-GIFT universities and their student representatives (or volunteers) to come and participate in this first EU-GIFT Buddy programme workshop.

Monday - October 28th, 2026
